

# 西北地震学报

## 第九卷

### 目 录

#### 第一期

- 复杂震源系统非线性阶段的多层次性及大震的中、短、临预报(二)……秦保燕(1)
- 本世纪中国西南大震活动的三种秩序及其可能的力源……阚荣举(10)
- 多层地壳模型近地震波走时表计算方法及程序设计……邵世勤 张诚 邓齐赞(18)
- 南北地震带北段地温场的初步探讨……张必教 董治平 韩友珍(26)
- 流变介质中无限平面滑动产生的长周期地震波及形变波的传播特性和时空分布……  
……张克理 冯德益(33)
- 1985年8月23日新疆乌恰地震6.7级强余震频谱分析……林学文 王兰民(42)
- 一种震荡型震磁效应的可能机制—膨胀硬化致稳、流体扩散失稳震磁效应……  
……卢振业(48)
- 用大地电磁测深法来监测地壳电性随时间变化的初步研究……  
……张云琳 司玉兰 郭守年 安海静(54)
- 青藏块体内北东向构造及其地震活动(以甘青宁地区为例)……向光中 吕德徽(62)
- 砂岩在不同条件下的强度变形特点和p波速度特征……邵顺妹(69)
- 阿斯南地震的地质条件与地震形变带特征……陈志泰 才树华(74)
- 纪念古浪大震六十周年……刘武英(83)
- 纪念兰州地球物理观象台建台三十周年……杨嘉文(84)
- 预测水库诱发地震的两个数学模式(英文稿)……常宝琦(102)
- 短文**
- 新疆地区量规函数、台基校正值的分析计算……高国英 艾尼瓦尔(103)
- 中国中部地区强震活动规律的光弹模拟试验研究……李淑恭 高德禄(108)
- PC-1500机在近震分析中的应用……韩剑虹(113)
- 青海盛家峡水库诱发地震活动特征研究……何 韦(115)
- 编好《甘肃省志、地震志》为我国四化建设服务……刘庆民 刘多域(117)

#### 第二期

- 耗散理论在地震预报中的应用……郭增建 秦保燕(1)
- 地壳内岩石的化学组成与地震成因之间关系的探讨……翟文杰(6)

- 地幔物质上涌引起断层强度的变化和分布……………钟晓雄(16)
- 阿尔金断裂东北段断层气体的初步研究……………  
……………张必教 何跟巧 廖元模 常秋君 万夫领 郭玉英(26)
- 华北强震活动的空间动态韵律(线理部分)……………王泽皋(33)
- 未震空区与卸载地震……………陆远忠 愈言祥(40)
- 乌恰7.5级地震前气象异常征象……………叶氏权(46)
- 灵武5.3级地震的中期和短期预报……………李孟奎(52)
- 万全井水位非前兆应变信息的探讨……………贾化周 董守玉 万迪坤(57)
- 甘肃省水氡台网监测地震能力的评述……………张文冕(63)
- 1842年6月11日新疆巴里坤7.5级地震……………杨章 丁德轩(70)
- 1986年8月26日门源6.4级地震考察初步总结……………  
……………兰州地震研究所青海省地震局联合考察队(75)
- 二台活断层的多次粘滑破裂和古地震复现期(英文稿)……………柏美祥 罗福忠(87)
- 短文**
- 1986年8月26日门源地震序列特征……………阎志德 张诚 肖丽珠 郭亚平(89)
- 江苏溧阳地震与华北北部地震的呼应关系……………杨理华(94)
- 古浪黄羊川断裂晚更新世以来活动特征的初步研究……………万夫领(97)
- 华北地区地震低烈度区面积与震级的关系式……………  
……………林怀存 蒋海昆 王保平 顾贞庆(101)
- “诱发前震”在新疆南北天山地震带中的应用……………魏若平 庾莉(106)
- 1987年1月8日甘肃迭部5.9级地震的震源机制解……………汪进 刘江峰 田军(88)
- 1987年1月8日甘肃迭部5.9级地震……………侯珍清(100)

### 第三期

- 饱含粘滞可压缩流体的多孔弹性介质中的地震波……………王少江(1)
- 地震失稳的滑动弱化模型的有限元分析……………李炳乾(11)
- 非平衡态统计物理学在地震成因分析中的应用——“局域”模型的建立……………任光耀(18)
- 地震危险区的确定和检验方法……………秦保燕 姚立珣(23)
- 中国大陆强震活动与其周缘强震活动的相关性……………  
……………虞雪君 姚立珣 顾瑾平 盛国英(31)
- 陇06井水潮汐的分析结果及其意义……………田少柏 郭大庆 刘光远 王薇(39)
- 渭河盆地东南部断裂带第四纪构造活动与地震……………贺明静 胡孟春 吕莲(45)
- 海城地震前蛇出洞现象与氡异常关系分析……………周可兴(51)
- 福建省沿海大陆边缘的断块构造和1604年泉州海外大震的孕育……………欧秉松 雷土成(57)
- 测震定位中模型影响的数值实验……………王周元(63)
- 中卫——同心活断层研究……………周俊喜 刘百麓(71)
- 土层组合及地貌单元与地震动的关系……………曾勇(78)
- 滇西北新构造运动时期构造应力场变化特征的探讨……………冉勇康 李祥根(84)

应力减小引起的岩石破坏与地震(英文稿).....耿乃光(98)

### 短文

灾害科学中的七兆数.....郭增建(122)

强地震活动可公度性的研究——以新疆乌恰—帕米尔大震为例.....朱令人(99)

1986年门源6.4级地震前的波速比异常与模糊数学方法的应用.....

.....顾瑾平 虞雪君 李清河 盛国英 闵祥仪 侯晓玉(103)

烈度的经济意义.....丁伯阳(107)

宁夏地区中强地震前兆的区域特征及初步分析.....杨明芝 赵和云(111)

天山古地震遗迹.....冯先岳(113)

天水地电台干扰原因的初步分析.....陆阳泉 王玉祥(116)

卫星影象解译1954年山丹地震发震断裂特征及地震地质背景.....王进宝(119)

## 第四期

组合模式与地震图上的终止震相—兼论唐山大震的震源破裂过程.....

.....秦保燕 汪进(1)

门源6.4级地震前小震活动的时间分维结构.....

.....李海华 张文孝 张勇利 郭亚平 马文进(15)

震源区的断层构造与震源应力积累过程关系的实验研究.....

.....荣代潞 贺玉亭 金铭 蒋续媛 高中强(21)

优化减震距离.....汪进(28)

岩石摩擦滑动的声发射b值.....

.....李纪汉 刘晓红 郝晋升 蔡戴恩 方亚如 耿乃光(34)

$\alpha$ 径迹的试验研究与地震关系的初步探讨.....倪明康 龙明 林思诚 李彤起(39)

民乐盆地某些活断层断层泥中石英颗粒的表面特征及其地震地质意义.....

.....吕德徽 向光中(48)

一种新型电磁波观测装置—深井垂直天线及初步观测结果.....

.....陈立德 任志洪 和宏伟 徐渝生 郑文兴 李克兴 李敏 王岭云(55)

地面脉动的工程地质意义.....林学文(63)

序列分析法在地震预报研究中的应用.....钟廷姣 王振声(69)

中国海域及其邻近海域烈度区划图及说明书(英文稿).....

.....郭增建 杨国军 秦保燕 陈家超 刘武英(78)

### 短文

从地震学文献检索系统对文摘的摘编方法谈地震期刊论文文摘的编写—兼与论文作

者商榷.....高树心(80)

门源6.4级地震前后区域形变背景初析.....于建民 袁铭 吉备 唐传芬(84)

临汾盆地的现代构造活动.....胡惠民 黄立人 王纪尧(88)

几次地震前的电磁波异常变化.....林美 李开复(91)

极值理论在上海市地震危险性分析中的应用.....汪梦甫(94)

## NORTHWESTERN SEISMOLOGICAL JOURNAL

Vol. 9 1987

Published in China

## CONTENT

№ 1

- The Multiple Layers of Non-linear Stage for the Complex Focus System and the Moderate-short Term Prediction of Large Earthquake..... *Qin Baoyan* ( 9 )
- Three Activity Orders of Great Earthquakes in Southwestern China During this Century and Their Possible Differences in Force Source..... *Kan Rongju* ( 17 )
- The Calculation Method and the Designing Programme of the Travel Time Table for the Near-by Seismic Wave of Multiple-Layer Crust Model ..... *Shao Shiqin et al.* ( 25 )
- Preliminary Research on the Geothermal Field in the Northern Part of North-South Seismic Belt.....  
..... *Zhang Biao et al* ( 32 )
- The Time-space Distribution and Propagation Characteristics of Long-period Seismic and deformation Waves Produced by Indefinite Plane Sliding in Rheology Medium.....  
..... *Zhang Keli and Feng Deyi* ( 41 )
- The Analysis of Frequency-spectrum of the Strong Aftershock (M=6.7) After Wuqia Earthquake on Aug.23, 1985 in Xingjiang..... *Lin Xuewen and Wang Lanmin* ( 47 )
- A Possible Mechanism of the Oscillatory Seismomagnetic Effect—Dilatant Hardening-Stabilizing, Fluid Defusing-Instabilizing Seismomagnetic Model..... *Lu Zhenye* ( 53 )
- Preliminary Study on Monitoring the Temporary Change in Electrical Property in Earth Crust on Ebo Site, Qilian, Qinghai Province by MT Method..... *Zhang Yunlin et al.* ( 61 )
- East-Northern Structures and Their Seismicity in the Qinghai Xizhang Massif..... *Xiang Guangzhong and Lu Dehui* ( 68 )

- The Characteristics of Strength Distortion and P Wave Velocity  
for Sandstone Under Different Conditions.....*Shao Shunmei* ( 73 )
- Geological Situation and Characteristics of Seismic Deformation  
Zone of Arsan Earthquake.....*Chen Zhitai and Cai Shuhua* ( 82 )
- Two Mathematic Models for Prediction of Reservoir Induced  
Seismicity.....*Chang Baoqi* ( 86 )

### Research Reports

- On a Modified Calibraton Function and Station Corrections of  
Determining the Local Magnitude in the Xinjiang Region.....  
.....*Gao Guoying and Anwr* ( 107 )
- The Research on Photoelastic Anolog Test for the Regularity of  
Strong Earthquakes in the Centre China.....  
.....*Li Shugong and Gao Delu* ( 112 )
- PC—1500 in Use of the Analysis of Near—by Earthquake.....  
.....*Han Jianhong* ( 114 )
- Research on Seismic Activity Characteristics of the Induced Earth-  
quakes in Qinghai Shengjiaxia Region.....*He Wei* ( 116 )

### № 2

- Application of Dissipative Theory in Earthquake Prediction.....  
.....*Guo Zengjian and Qin Baoyan* ( 5 )
- The Preliminary Studing of the Relationship between Origin of  
Earthquake and Elementary Composition of Rocks in the  
Crust.....*Zhai Wenjie* ( 15 )
- Distributions and Changes of Fault Strength due to Mantle Uplift  
.....*Zhong Xiaoxiong* ( 25 )
- Preliminary Research on Gas in the Faults in the Northeastern  
Section of Aerjin Fracture Zone.....*Zhang Biao et al.* ( 32 )
- Spatial Dynamic Rhythm of Strong Seismic Activity in North China  
.....*Wang Zegao* ( 39 )
- Seismic Gap of on Following Earthquakes and unloading Earthquake  
.....*Lu Yuanzhong and Yu Yanxiang* ( 45 )
- Anomalous Meteorological Phenomenon and Feature before the  
Earthquake of  $M=7.4$  in Wuqia.....*Ye Minquan* ( 51 )
- Medium and Short—term Forecast of Lingwu Earthquake ( $M=5.3$ )  
in Ningxia.....*Li Mengluan* ( 56 )
- Study of Unprecusory Strain Information on Water Level of  
Wanquan Well.....*Jia Huazhou et al.* ( 62 )
- A Comment on the Capacity of Prediction by Means of Radon in

- Gansu Province.....Zhang Wenmian ( 69 )  
 The Balikun Earthquake (M=7.5) on June 11, 1842 in Xinjiang.....  
 .....Yang Zhang and Ding Dexuan ( 74 )  
 A Preliminary Summarization of the Menyuan Earthquake (M=6.4)  
 on Aug.26, 1986.....Joint Investigation team ( 80 )  
 Multiple Stick-slip Fracturing and Paleoseismic Recurrence Period  
 on the Ertai Active Fault.....Bai Meixiang and Luo Fuzhong ( 81 )

### Research Reports in Brief

- The Sequence Characteristics of Menyuan Earthquake on Aug.26,  
 1986.....Yan Zhide et al. ( 93 )  
 The Corresponding Relationship between Liyang Earthquakes in  
 Jiangsu Province and Earthquakes in the Northern Part of  
 North China.....Yang Lihua ( 96 )  
 Preliminary Study on Characteristics of Tectonic Activities Since  
 Epipliocene in Huangyangchuan Fault, Gulang Region.....  
 .....Wan Fuling ( 100 )  
 The Relation between Magnitude and the Area of Low Intensity of  
 Earthquakes in North China.....Lin Huaicun et al. ( 105 )  
 The Application of Induced Forerunner Earthquakes in the North  
 and South of Tianshan Seismic Belt in Xinjiang.....  
 .....Wei Ruoping and Yu Li ( 109 )  
 Mechanism of the Diebu Earthquake (M=5.9) on Jan. 8, 1987 in  
 Gansu Province.....Wang jin et al. ( 110 )  
 The Diebu Earthquake (M=5.9) on Jan. 8, 1987 in Gansu Province  
 .....Hou Zhengqing ( 100 )

### № 3

- The Seismic Waves in Viscous Compressible Fluid Saturated,  
 Porous Elastic Media.....Wang Shaojiang ( 10 )  
 Analysis for Slip-softening Model of Earthquake Instability by  
 Finite Element Method.....Li Bingqian ( 17 )  
 Application of Non-Equilibrium Statistical Physics in Analysis of  
 Cause of Earthquake.....Ren Guangyao ( 22 )  
 A Method of Determining and Examining Earthquake Risk Region  
 .....Qin Baoyan and Yao Lixun ( 30 )  
 The Correlation between Strong Seismicity within Chinese Continent  
 and Strong Seismicity around It.....Yu Xuejun et al. ( 38 )  
 Results and Significance of Well Tide Analysis of Well No.6 in  
 Gansu Province.....Tian Shaobai et al. ( 44 )

- The Quaternary Tectonic Activity and Earthquakes along the Fault Belt in the Southeast of Basin.....*He Mingjing et al.* ( 50 )
- Analysis on Relationship between the Phenomenons of Snakes Leaving Holes and Radon Anomalies before the Haicheng Earthquake.....*Zhou Kexing* ( 56 )
- The Fault-Block Structures along the Fringe of Coastal Continent in Fujian Province and the Preparation for the Quanzhou Bay Earthquake in 1604.....*Ou Bingsong and Lei Tucheng* ( 62 )
- The Numerical Experiments about Effects of the Deviation of Crustal Model Used in Location.....*Wang Zhouyuan* ( 70 )
- The Research of Active Zhongwei-Tongxin Fault.....  
.....*Zhou Junxi and Liu Baichi* ( 77 )
- Relation between Earthquake Motions and Combinations of Soil Layers and the Topographic Units.....*Zheng Yong* ( 83 )
- The Evolution of the Tectonic Stress Field in Northwest Yunnan during Neotectonic Region.....*Ran Yongkang and Li Xianggen* ( 91 )
- Rock Failure and Earthquakes Caused by Stress Decreasing.....  
.....*Geng Naiguang* ( 92 )
- Research Reports in Brief**
- Study on Commensurable Characteristics of Strong Earthquakes Activities-Regard Strong Earthquakes in Wuqia-Pamier Area in Xinjiang as Sample.....*Zhu Lingren* ( 102 )
- Anomalies of Seismic Wave Velocity Ratio before the Menyuan Earthquake (M=6.4) on August 23, 1986 in Qinghai Province.....  
.....*Gu Jinping et al.* ( 106 )
- The Economic Significance of Intensity.....*Ding Boyang* ( 110 )
- Regionalism and its Initial Analysis of the Moderate Earthquakes in Ningxia.....*Yang Mingzhi and Zhao Heyun* ( 115 )
- The Ancient Earthquake Traces in Tianshan Region.....*Feng Xianyue* ( 115 )
- Preliminary Analysis on the Interference of Tianshui Earth Current Observatory.....*Lu Yangquan and Wang Yuxiang* ( 118 )
- Interpretation Effect of Landsat Photographs about Characteristics Earthquake Fracture and Seismogeology Background of the Shandan Earthquake (M=7 $\frac{1}{4}$ ) in 1954.....*Wang Jinbao* ( 121 )

## No 4

- Combination Model of Earthquake Development and Stopping phase in Seismograms-On the Rupture Process of the Tangshan Earthquake.....*Qin Baoyan and Wang Jin* ( 14 )

The Temporal Fractal Structure of Small Seismic Activity before the Menyuan Earthquake (M=6.4) .....	<i>Li Haihua et al.</i> ( 20 )
Experimental Study on the Relation between the Structural form of Fault in Earthquake source and its stress Accumulation Process .....	<i>Rong Dailu et al.</i> ( 27 )
Optimal Distance of Reducing seismic Risk .....	<i>Wang Jin</i> ( 33 )
The b Value of Acoustic Emission in Frictional Sliding of Rocks .....	<i>Li Jihan et al.</i> ( 38 )
Research on the Alpha Track Etch Method and its Application to Earthquake Prediction .....	<i>Ni Mingkang et al.</i> ( 47 )
Characteristics of Surface Textures of Quartz Grains from Fault Gouge of some Active Faults in the Minle Basin and their Seismogeological Implication .....	<i>Lu Dehui and Xiang Guangzhong</i> ( 54 )
Vertical Deep—well Antenna—A New type Device for Electromagnetic Wave Observation and the Preliminary Results .....	<i>Chen Lide et al.</i> ( 62 )
The Significance of the Engineering Geology on Ground Microtremor .....	<i>Lin Xuwen</i> ( 68 )
Sequence Analysis Method and its Application in Earthquake Prediction .....	<i>Zhong Tingjiao and Wang Zhensheng</i> ( 73 )
Brief Illustration on the Seismic Zoning of the Sea Area of China and its Vicinity .....	<i>Guo Zengjian et al.</i> ( 74 )
<b>Research Reports in Brief</b>	
On Writing the Abstract of Seismological Journal Paper from Extract and Compile of the Abstract in Seismological Literature Searching System—Disussing with the Authors of the paper .....	<i>Gao Shuxin</i> ( 83 )
A preliminary study on the Background of Regional Deformation of the Menyuan Earthquake (M=6.4) .....	<i>Yu Jianmin et al.</i> ( 87 )
Recent Structural Activity in Linfen Basin .....	<i>Hu Huimin et al.</i> ( 83 )
Characteristics of the Electromagnetic wave Anomalies before Several Earthquakes .....	<i>Lin Mei and Li Kaifu</i> ( 93 )
An Application of the Extremal Value Theory to the Seismic Risk Analysis of Shanghai City .....	<i>Wang Mengfu</i> ( 76 )
